DELUXE R16 CABIN

The frontal and side windshields of the Raimondi Deluxe R16 Crane Cabin allow crane operators a full jobsite view as more than 80% of the total cabin surface is glass. Two-toned windshield glass was developed, ensuring interior cabin comfort while maintaining superior visibility. Keeping with the schema of increased viewing fields, the R16 cabin door is made fully of glass, providing crane operators an additional line of sight. One of the largest cabins available in today's crane marketplace, the Raimondi Deluxe R16's dimensions, at a height 2.07 meters, length of 2.135 meters and width of 1.40 meters, is highly comfortable and even allows for easy inter-cabin walking.
